

Courses in Computer Science and Engineering

The Department of Computer Science and Engineering (CSE) offers an expansive undergraduate and graduate curriculum, based on the application and theoretical foundations of computer science. CSE students gain breadth and depth of knowledge in a multitude of specialties, including: operative system, computer networks, software engineering, data mining, bioinformatics, human computer interaction, graphics, architecture, numerical analysis, and artificial intelligence. Students are instructed by internationally renowned faculty and well prepared for industry positions, competitive graduate programs, and academic positions.

The Department of Computer Science and Engineering offers the following programmes:

Courses Offered	Specialization	Intake	Year
Bachelor of Engineering(B.E.)	Computer Science and Engineering	(Accredited)	1202002
Master of Engineering(M.E.)	Computer Science and Engineering		182007
